Professor V. V. Obukhov  
Rector Tomsk State Pedagogical University,  
Tomsk  
Russian Federation

Dear Prof. Obukhov

It is with great pleasure and being an honor for me to address some considerations to you on occasion of celebration of 115th anniversary of Tomsk State Pedagogical University. I had the opportunity to visit TSPU several times, of course one in coincidence with my nomination of honorary professor of TSPU, an honor I had appreciated very much.

I know that TSPU has the merit to be the oldest educational institution in Siberia, and one of the most important institutions of higher education of Russia. In my opinion, this is due also to the fact that renowned international theoretical physicists like Prof J. Buchbinder, Prof S. D. Odintsov, Prof. I Shapiro, Prof Lavrov and many others are members of TSPU.

I wish you and all members of TSPU all the best for the future!

Yours sincerely

Sergio Zerbini  
Associate Professor  
Theoretical Physics
